Premise: The Solar Republic Space Card Game is based on a future in which humankind has become space-faring and technological advanced. As we explore the Solar System and uncover secrets of the unknown that awaits our appetite for conflict, aggression, and war remains as strong as ever. The Solar System has become a cluster of feudalist republics vying for power and natural resources. You are tasked by the new world capital, Geneva with uniting these warring factions of a divided Solar System under one throne.

The Solar Republic features beautifully designed astronomical symbols for the prominent moons of our Solar System based on their planet, key features and the tales behind thier names.
